

## **Interactive Educational Exchange Abstract Guide**

**1. Background/Context:**

Why is this educational innovation important to Hospice and Palliative Care?  
How does it connect with past scholarship/research?

**2. Audience:**

Who is the target learners for your educational innovation?  
Who else could benefit?

**3. Approach:**

Describe your educational innovation- include materials used, educational methods, primary outcomes and how were they measured.

**4. Results/Outcomes:**

Describe the results for your innovation- For example:

- a. how many learners participated?
- b. how many iterations of the innovations were performed?
- c. what were the outcomes measured, what changed or did not change for the learners?

**5. Impact:**

What is the innovation's potential impact on the field- education and/or Hospice and Palliative Medicine?

**6. Critique/Next Steps:**

What are the strengths of the innovation?  
What are areas that need improvement?  
What are the next steps?
