What is AAHPM’s Vision for the Leadership Forum?

The vision of the AAHPM Leadership Forum is to engage hospice and palliative physicians in developing skills that will advance their leadership roles and practice.

Why is this program important?

The Academy recognizes that leadership skills are often acquired “in practice” in the field of hospice and palliative medicine. In order to provide a more comprehensive model for leadership skills development, the AAHPM Leadership Committee defined core competencies which are designed to increase knowledge and skills necessary to better equip physicians in their roles and practice settings. Recognizing that leadership skills emerge and evolve throughout one’s career, a key goal is to establish curriculum that is accessible to physicians to complement their clinical expertise with leadership development expertise.

What are the key benefits of the Leadership Forum?

It advances the skills of hospice and palliative physicians by providing content in the following areas:

1. Interpersonal skills
2. Communications skills
3. Professional ethics
4. Clinical excellence
5. Ability to convey a clear, compelling vision
6. Continuous learning and improvement
7. System-based decision making and problem solving
   a. Ability to build coalitions of support for change
   b. Ability to address the needs of multiple stakeholders
8. Financial acumen and resource management
9. Social responsibility

It provides optimum access to hospice and palliative care physicians through live and on-demand web-based programming.
It is designed in collaboration with the American Association for Physician Leadership (Association), offering faculty experts, as well as a master’s degree and certification options if desired.* (note that pre-requisites apply through the Association).

The Leadership Forum advances individual professional goals through the competencies noted. Through this skill development, the program has the potential to impact the entire care team, working together to provide care for the hospice and palliative patient and their families.

**How will this program be delivered?**

The program provides both live and web-based education based on the core competencies adopted by the leadership committee to support the professional development goals of hospice and palliative physicians in a variety of practice settings, including hospital-based, academic or stand-alone hospice or palliative care facilities. The focus and model for AAHPM Leadership Forum emphasizes both experiential and developmental aspects of the physician’s role as well as their professional development goals. There are three program components and distinct offerings, including **AAHPM Ignite**, **AAHPM Ascend**, and **AAHPM Elevate**. The offerings will be repeated annually.

**Do I have to register for all of the program offerings?**

Individuals participating in these program offerings can approach this in a multiple ways, including full participation in live and on-demand content, which provides CME contact hours, a certificate of completion through AAHPM, and potentially credit toward one of four American Association for Physician Leadership Master’s degrees, as well as the Certified Physician Executive (CPE) credential if desired. Individuals may select some or all of the content offered based on their unique leadership development goals.

**How much time will I have to complete all live and web-based components of this program to achieve the AAHPM Leadership Forum Certificate of Completion?**

Individuals who wish to acquire a certificate of completion for participating in the full Leadership Forum will have two years from launch to complete this program. Click here to download a form to submit to AAHPM.

satisfaction, reduced length of stay and better integration of clinical care across service lines. To be effective, physician leaders must master multiple clinical and leadership competencies, including interpersonal skills. When leaders learn to use interpersonal skills, they are able to apply them in a wide variety of specific activities, including leading teams, coaching and managing conflict.

**Learning Objectives:**

1. Establish more effective relationships with colleagues and patients.
2. Define the essential behaviors and practices of good teamwork.
3. Work better within teams.
4. Increase effectiveness as a team leader.
5. Describe basic influence principles.
6. Use influence to motivate others.
7. Use influence to resolve and/or prevent interpersonal and organizational conflicts.

This session applies to all physician leaders and practice settings looking to increase their effectiveness as a team leader. This preconference program is offered in partnership with the American Association for Physician Leadership and presented by Association faculty.

Primary leadership competencies addressed in this program include interpersonal skills, communication skills, and the ability to convey a clear, compelling vision.
