

2025 Annual Assembly of Hospice and Palliative Care Learner Disclosure and Mitigation Report

As the stewards of the learning environment for healthcare professionals, accredited continuing education (CE) plays a critical role in navigating the complex interface between industry and the health professions. Through our accreditation, AAHPM and HPNA ensure professionals have access to learning and skill development activities that are trustworthy and are based on best practices and high-quality evidence. These activities must serve the needs of patients and not the interests of industry. In order to participate as a person who was in a position to control the educational content of the 2025 Annual Assembly, planners, faculty and reviewers were required to disclose all financial relationships with any ineligible companies that they had over the past 24 months regardless of whether the individual viewed the financial relationship(s) as relevant to the accredited educational content. Ineligible companies were defined as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. All planner, faculty, author and reviewer disclosure information underwent an accreditation review to determine whether the individual's financial relationship(s) was/were relevant to the Assembly accredited continuing education content. Note: the identification of relevant financial relationships did not necessarily mean that individual was unable to participate in the planning and implementation of the 2025 Annual Assembly. Accreditation standards required that relevant financial relationships be mitigated prior to individuals assuming their role in the 2025 Annual Assembly accredited content offerings to prevent commercial bias and disclose the presence or absence of all relevant financial relationships to learners prior to the learner participating in the activity. For more information on the Standards for Integrity and Independence in Accredited Continuing Education, please visit <https://accme.org/resource/standards-for-integrity-and-independence-accredited-continuing-education-toolkit/>.
